**Newport City Council  
Improvement Plan 2016-18  
Summary**

---

## Newport City Council

---

Newport City Council is a unitary authority responsible for the administration of all areas of local government within a single tier for a given area. The Council was formed as a county borough in 1996 and obtained city status in 2002. It is the 8<sup>th</sup> largest in Wales, providing all major services such as education, leisure, housing, social services, planning and highways.

There are 50 Councillors and following the May 2012 election we have a Labour administration with 37 Labour, 10 Conservative, 2 Independent and 1 Liberal Democrat Members elected. The Council employs approximately 5,700 people and has a budget of £264m

As stated in the Council's Corporate Plan 2012-2017, there are currently unprecedented levels of cuts to public sector funding. The Council will be focusing primarily on how best to deploy its efforts to make sure that the city thrives and prospers – with projects underpinned with our determination to improve the well-being of all Newport's citizens.

The purpose of the Improvement Plan is to evidence that the Council is delivering on its duty under the Local Government Measure (Wales) 2009 to secure continuous improvement. The Improvement Plan focuses on eight Improvement Objectives – areas of work where we aim to make a significant difference to services and outcomes and to 'improve people's lives'.

The Improvement Plan builds on the Council's Corporate Plan and the Local Service Board's Single Integrated Plan (the overall plan for Newport). The Improvement Plan is not designed to describe all of the Council's day to day work; for more information on those details, refer to the Council's Service Plans.

## Summary Improvement Plan Objectives

---

### The eight 2016/17 Improvement Objectives for Newport

---

The eight Improvement Objectives selected for 15/16 are grouped under the Corporate Plan's themes:

#### A Caring City

---

##### *1. Improving independent living for older people*

---

Working with Aneurin Bevan University Health Board and partner agencies, Neighbourhood Care Networks (NCN's) have been developed comprising all Primary Care, health and social care community providers operating across the West, East and North of the city with boundaries which broadly coincide with the Team around the Cluster boundaries, and they have an adopted range of priorities to improve the health and wellbeing of the population, many of which are contributors to the Health and Wellbeing theme work to deliver the Newport Single Integrated Plan.

##### *2. Ensuring people have the right social services to meet their needs*

---

We will help people identify and fulfil the outcomes they want to achieve, where possible utilising their ideas and preferences with an emphasis on co-production and use their own ideas and resources. We will help people with care and support needs to stay safe whilst promoting their independence and control whilst supporting positive risk taking through the provision of high quality care and support services.

## A Fairer City

---

### *3. Ensuring people have access to suitable accommodation*

---

The objective is to ensure that people have access to suitable accommodation. For most people, their homes are the foundation for everyday life and are critical to their quality of life. Most households are able to find homes through owner-occupation, the social rented sector or, increasingly, the private rental market but we need to make sure that the supply of housing is aligned to local housing needs and that there is help available for individual households who cannot find homes or whose housing is unsuitable, in poor condition or at risk

## A Learning & Working City

---

### *4. City Regeneration and Development*

---

The objective goes hand-in-hand with the delivery of the Council's ten-year Economic Growth Strategy 'People, Places, Prosperity', which will continue to drive Newport forward as 'an area of visible change, with high aspirations, high achievement and shared prosperity'

### *5. Supporting young people into education, employment or training*

---

Evidence from work undertaken by Professor David Egan (on behalf of the Joseph Rowntree Foundation) suggests that efforts to prevent young people from becoming NEET have a more profound long term impact than work undertaken to support young people who are NEET back into provision. The Improvement Objective of Supporting Young people to remain within education, employment or training, focuses on early identification, information sharing and additional specific provision, to meet the needs of young people.

### *6. Ensuring the best educational outcomes for children*

---

To ensure all our pupils are effectively engaged in education so that they can attain the best possible educational outcomes. This includes vulnerable learners that may be at risk of not reaching their expected level of attainment.

## A Greener and Healthier City

---

### *7. Increasing recycling*

---

To ensure Newport delivers the Welsh Government objectives for the increasing of recycling and the European targets for diversion of waste from landfill, every recycling and diversion opportunity available to the city must be explored and where applicable, implemented.

The diversion of residual municipal waste from landfill will largely be covered by the operation of Prosiect Gwyrdd. Therefore, this objective will largely focus on encouraging businesses and residents within the city to recycle more which will maximise the potential currently being classified and treated as residual waste.

## A Safer City

---

### *8. Preventing Offending and Re-offending of young people*

---

The principle aim of the youth justice system, established by section 37 of the Crime and Disorder Act 1998, is to prevent offending by children and young people. This relates to prevention of anti-

social behaviour and offending; appropriate use of Out of Court Disposals to divert young people from the criminal justice system; reducing the rate of proven re-offending and reducing the proportion of young people sentenced to custody. In line with Welsh Government and Youth Justice Board policy, we believe that prevention is better than cure and that children are young people first and offenders second.

## **Update on Wales Audit Office Recommendations and Proposals for Improvement**

In September 2013, the Auditor General published his Full Corporate Assessment report where several Recommendations and Proposals for Improvement were issued to the Council. During November and December 2014, Wales Audit Office reviewed the progress that the Council had made in implementing the recommendations and proposals for improvement and issued a Corporate Assessment Review in May 2015.

## Improvement Objective 1

### Improving Independent Living for Older People

[Link to Corporate Plan](#): A Caring City

[Lead Cabinet Members](#): Cabinet Member for Social Care and Wellbeing

[Lead Officer](#): Head of Adult and Community Services

#### **What is the Improvement Objective?**

##### **Description of Improvement Objective (FG Act Principle: Long Term)**

As part of the Primary and Community Services Strategy for Wales, 'Setting the Direction', published in 2009, Health Boards across Wales have established a framework for primary and community service delivery called GP Clusters. In Aneurin Bevan University Health Board the concept has been broadened, recognising the contribution made by partner agencies, and the clusters are known as Neighbourhood Care Networks (NCN's). The NCN is a collaborative network comprising all Primary Care, health and social care community providers operating within the boundaries of the geographical footprint. There are three NCN's established across Newport covering West, East and North of the city, with boundaries which broadly coincide with the Team around the Cluster boundaries, and they have adopted a range of priorities to improve the health and wellbeing of the population, many of which are contributors to the Health and Wellbeing theme work to deliver the Newport Single Integrated Plan.

Newport City Council Adults Social Services has been working with colleagues from Aneurin Bevan University Health Board (ABUHB) to develop an integrated pathway for older people which aims to identify those most at risk of needing health and social care services in the future. This has involved working with GP's and the voluntary sector to put in place individual plans called "Stay Well Plans" to sustain people in their home and support their taking responsibility for their own wellbeing and using community based support and use of preventative services such as befriending.

#### **What are we going to do?**

- 1.1 To deliver an integrated assessment process for older people in 2015/16 based on the models developed in support of the Social Services & Well Being Act.
- 1.2 To roll out the integrated pathway for older people needing care and support in the community across the NCN's in Newport.
- 1.3 Restructure the operational adult social services teams on the NCN footprints

### How will we know?

Measure	Target for 16/17
1a Provision of Telecare packages	850
1b OT Assessment & Reviews	85%
1c Reablement – Number of people fully reabled	450
1d The percentage of adults who completed a period of reablement have no package of care and support 6 months later	40% <b>to review after 6 months</b>
1e The percentage of adults who have received advice and assistance from the information, advice and assistance service and have not contacted the service again (Over 75)	38% <b>to review after 6 months</b>

### Partnership: Who do we need to work with?

Stakeholder engagements events called Well Being workshops are planned for March and April with people and carers, voluntary organisations and professionals to introduce them to the older person's pathway and the Stay Well Plan

## Improvement Objective 2

### **Ensuring people have the right social services to meet their needs**

**Link to Corporate Plan:** A Caring City

**Lead Cabinet Member:** Cabinet Member for Social Care & Well Being

**Lead Officer:** Head of Adult and Community Services

#### **What is the Improvement Objective?**

The implementation of the Social Services and Well Being Act (SSWB Act) will mean that we will be expected to work in partnership with the people who need the support of social services and also people who fulfil a caring role. We will help people identify and fulfil the outcomes they want to achieve, where possible utilising their ideas and preferences with an emphasis on co-production and use their own ideas and resources. We will be expected to help people with care and support needs to stay safe whilst promoting their independence and control whilst supporting positive risk taking through the provision of high quality care and support services.

We are working with colleagues in developing an integrated assessment process for older people across health and social care and will be working to an all Wales eligibility process for people who need care and support. We will also need to ensure people have access to the right services to meet their outcomes whether these are services that we directly commission, services they may use in their local communities or when they arrange their own care and support through the use of a direct payment.

#### **What are we going to do?**

- 2.1 Establish the pathway for adult social services across health and social care based on the NCN footprint and ensure we have configured our resources to deliver the new Act
- 2.2 Restructure the operational adult social services teams.
- 2.3 Develop and implement the integrated assessment tools including a carers assessment and a care and support plan. Develop the use of mobile technology to capture assessment information and support co-production of care and support plans.
- 2.4 Review and re-commission services as necessary to ensure they are in line with the requirements of the SSWB Act.

2.5 Review and develop our systems and processes to ensure they are in line with the new national outcomes framework for the SSWB Act, including the new requirement to undertake surveys

2.6 Undertake a Questionnaire of people who have a care and support plan to understand: -

Percentage who reply: I feel safe

Percentage who reply: I was treated with dignity and respect

Percentage who reply: I can do the things that are important to me

#### How will we know?

Measure	Target for 16/17
2a Number of Integrated Assessments completed per month	40 per month
2b Support for People in Care Homes	56%
2c Number of LA residents experiencing DToC	30
2d Carers Offered Assessment or Review	85%
2e Adult Protection Risk Managed	99%

#### Partnership: Who do we need to work with?

We need to ensure that staff and partner agencies such as our providers and third sector partners understand the SSWB Act and how this will impact on social services and what their contribution will be.

Our teams will need to develop our relationship with the NCN Managers and GP's and other health professionals working within these footprints.

Ensure people that we provide with care and support and their carers understand the changes being made through regular engagement events and consultation.

## Improvement Objective 3

The objective is to ensure that people have access to suitable accommodation. For most people, their homes are the foundation for everyday life and are critical to their quality of life. The housing objective means:

- Securing the provision of a variety of homes for people to rent or buy

#### **What is the Improvement Objective?**

Following a comprehensive consultation exercise, in April 2015 Council reaffirmed development and 'City Regeneration and Development' as one of the foremost priorities amongst its programme for continuous improvement. The key aims within this strategy that align with the improvement objective are:

- Deliver shared prosperity: establish robust skills and work partnerships, supporting identified growth sectors for Newport and the region and maximising future employment opportunities;

The co-ordination is undertaken through the Young People’s Education, Employment and Training Group and this is supported by Pre and Post 16 Partnerships and a Learning Provider Network of all providers across Newport. [Lead Officer](#): Head of Streetscene and City Services

#### **What is the Improvement Objective?**

To increase recycling and divert waste from landfill. To ensure Newport delivers the Welsh Government objectives for the increasing of recycling and the European targets for diversion of waste from landfill, every recycling and diversion opportunity available to the city must be explored and where applicable, implemented.

The diversion of residual municipal waste from landfill will largely be covered by the operation of Prosiect Gwyrdd. Therefore, this objective will largely focus on encouraging businesses and residents within the city to recycle more which will maximise the potential currently being classified and treated as residual waste.

#### **What are we going to do?**

##### 7.1 To improve the recycling services

In order to improve the current service and with the aim of increasing the recycling performance, Newport City Council is planning to increase cardboard collections adding them to the weekly kerbside collections, together with collecting tetra pak as a new recyclable material. This will enable resident to recycle more materials and more frequently leaving only non-recyclable items to be collected fortnightly. Roll out of smaller refuse bins will be finished too.

Newport City Council will also aim to improve the recycling activity in areas of flats, which due to their different characteristics present some challenges and historically have a lower recycling rate.

A door knocking campaign will also be carried out, to help engage with residents and effectively communicate all the projected changes, also including activities with schools or community hubs.

Finally The Council will analyse options to improve the House Waste Recycling Centre facilities to make it more accessible and efficient
