

Fairness and Equalities Impact Assessment (FEIA)

Version 3.6 May 2017

The purpose of this assessment is to provide balanced information to support decision making and to promote better ways of working in line with equalities (Equalities Act 2010), Welsh language promotion (The Welsh Language (Wales) Measure 2011), sustainable development (Wellbeing of Future Generations (Wales) Act 2015), and the four parameters of debate about fairness identified by the Newport Fairness Commission (NFC Full Report to Council 2013).

1. Name and description of the policy / proposal being assessed. Outline the policy's purpose.

Newport City Council Accessibility Strategy for Schools, 2018-2023.

The preparation of an Accessibility Strategy for Schools by the local authority is a requirement under schedule 10 of the Equality Act 2010. It is also identified as an action within Equality Objective 3; Improving access to services, of the council's Strategic Equality Plan.

The children's commissioner has recently written to all Welsh local authorities advising that accessibility strategies should be developed through participation, published and publicised.

The accessibility strategy for schools sets out the roles, responsibilities and aims of the local authority in improving the degree to which all young people are able to achieve their potential through an inclusive education experience. It is intended to underpin and support the delivery of a range of measures to improve equality of opportunity to access an inclusive education which enables them to develop in accordance with their physical, social and emotional needs.

The strategy also sets out the expectations on schools in delivering this strategy, and how they will be supported by the local authority.

The aim of the strategy is to secure improved access to education across three themes:

- Physical inclusion

- Information provision
- Communication and transparency

2. Outline how you have/ will involve stakeholders who will be affected by the policy/proposal

The draft strategy has been developed through the engagement of a range of stakeholders in a workshop held at GAVO HQ on 25 June 2018. Attendees included representatives from:

- GAVO
- Sparkle (Serennu Children's Centre)
- Newport parent groups
- Newport Access Group/Disability Wales
- NCC preventative services
- NCC occupational therapists
- NCC children's rights
- NCC education inclusion
- Primary and secondary school representatives

Attempts are currently being made to engage with young people who are or have recently been through the education system in Newport. The strategy will be subject to a full public consultation in which we will seek the views of all stakeholders.

3. What information/evidence do you have on stakeholders? e.g. views, needs, service usage etc. Please include all the evidence you consider relevant.

The stakeholder workshop referenced above provided some insight to the range of needs and to the views of parents and support groups.

As the strategy relates to Newport schools, the stakeholders are children and young people aged between 3-19 years and their families, carers and support groups. As of January 2018, there were 25,766 pupils on roll in Newport schools, of whom 182 were attending a special school. (PLASC 2018) A further 216 primary age pupils and 64 secondary age pupils were placed within Learning Resource Base classes in mainstream schools.

Nationally we know that 6% of the child population under 16 years are registered disabled, while 10% of children under 15 are known to have a mental disorder. It therefore follows that the strategy relates to the needs of between 6 and 10 percent of our school population – potentially more than 2,500 pupils.

It is noted that disabled adults are more than twice as likely to have no formal

qualifications as non-disabled adults. The disability strategy will seek to remove the barriers to achievement.

5 How has your proposal embedded and prioritised the sustainable development principle in its development?

Sustainable Development Principle	Does your proposal demonstrate you have met this principle? Describe how.
 <p>Long Term</p> <p>Balancing short term need with long term needs</p>	<p><i>The strategy promotes the implementation of policies, training and awareness that will positively change the outlook and culture of our schools. Physical changes made will be designed to deliver permanent improvements for pupils with various needs, to improve access to the school concerned.</i></p>
 <p>Collaboration</p> <p>Working together to deliver objectives</p>	<p><i>The strategy sets out a commitment to working with children, young people, their families and carers when making decisions which are likely to affect the quality and equity of their education provision. The implementation of the strategy will be undertaken in partnership with our schools and occupational therapists, taking into account the needs and desires of the pupil and their family/carers.</i></p>
 <p>Involvement</p> <p>Involving those with an interest and seeking their views</p>	<p><i>The stakeholders are the children and young people of Newport, their families and carers. Parents, professionals and support workers have been engaged through the workshop held at GAVO on June 25th. 6. Will the proposal/policy have a disproportionate impact on a specific geographical area of Newport?

No, the strategy supports improvement across all education clusters.

6 How does the proposal/policy relate to the parameters of debate about Fairness identified by the Newport Fairness Commission

Parameter 1 – Equal treatment while recognising difference

The aim of the strategy is to improve accessibility to provide an inclusive education system, by removing barriers to learning. It is expected that all reasonable efforts should be made to realise this aim, although it is understood that individual pupils will have

specific needs, and a generic approach to accessibility will not eliminate the future requirement to respond to specific individual needs.

Parameter 2 – Mutual obligations between citizens and government

The authority acknowledges that the efforts of our schools and staff in implementing this strategy must be supported by parents, pupils, carers and support workers in order to be successful and have a significant impact

Parameter 3 – Interdependency and reciprocity within community relations

The aim of the strategy is to improve accessibility to provide an inclusive education system, by removing barriers to learning. It is expected that all reasonable efforts should be made to realise this aim, although it was noted in the stakeholder workshop that the response has to be proportionate and should not unduly disadvantage or adversely affect the experience of the peer group, as to do so would be counter-productive. This consideration needs to be reflected in advice and guidance provided by the local authority and other professionals.

Parameter 4 – Transparency and accountability in decision making

The strategy acknowledges and embraces the need to consult with stakeholders in decision making and the need to communicate and provide information clearly.

7 Taking this assessment as a whole, what could be done to mitigate any negative impacts of your policy and better contribute to positive impacts?

The strategy is not expected to deliver any negative outputs

8 Monitoring, evaluating and reviewing

How and when will the impact of the proposal/ policy be monitored and reported on?

The council's progress in implementing the strategy will be monitored by the accessibility steering group and reported to members through the council's management and scrutiny group.
