

Fairness and Equalities Impact Assessments F&EIAs (2015)

This form presents evidence that equalities, Welsh language and fairness have been considered when taking policy and service delivery decisions in Newport City Council.

Our Equalities focus is taken from the Equalities Act 2010: we consider the nine protected equalities characteristics- age, gender reassignment, disability, marriage and civil partnership, pregnancy and maternity, race, religion and belief, sex, sexual orientation.

Under the General Equality Duty we have a duty to:

- Eliminate unlawful discrimination, harassment and victimisation
 - Advance equality of opportunity and
 - Foster good relations
- across the nine protected characteristics.

Under the Welsh Language Measure 2011 the Welsh language cannot be treated any less favourably than the English language

In Newport we focus on Fairness through the following themes: Health, Poverty, Skills and Work, Domestic Abuse and Tackling Area Based Deprivation.

Service Area	Head of Service	Person responsible for the Assessment	Date of Assessment
Education	Sarah Morgan	Deborah Weston	October 2017

1. What is the policy/ service being assessed?

To move to publish a statutory notice on the school reorganisation proposal to permanently remove the Learning Resource Base provision that is currently at Llanwern High School with effect from January 2018.

2. What is the purpose of the policy/ service change?

To implement the budget savings agreed by Cabinet to cease the funding attributable through the Individual Schools Budget (ISB) for the Learning Resource Base provision at Llanwern High School.

4. Who has the service consulted regarding the proposed change? When should new consultation take place?

NB: It is essential that service users and other interested parties are involved in the planning process at the earliest opportunity. Consultation at an initial stage should be along broad themes. It is appropriate to ask what services are valued, how services could be changed and or what could be done differently. This feedback should then inform your business case proposals and the F&EIA. When specific proposals have been drawn up, they too will need to be consulted upon. All stakeholders and their views need to be represented.

The cessation of funding was included in the Council's budget proposals for 17/18, and this was subject to public consultation. Notwithstanding this however, this proposal was subject to formal consultation with a range of stakeholders as defined in the WG School Organisation Code. The feedback received during the formal consultation is outlined in a Consultation Report which has been prepared and published on the Newport City Council website.

The next stage in this process is the publication of a Statutory Proposal for a period of 28 days. This will provide all stakeholders with an opportunity to further consider, and if necessary lodge legal objections to, the proposal.

5. What evidence/ data has been used to complete this F&EIA (This will include local and national guidance)

Business cases were drafted as part of the Council's budget proposals for 2017/18.

A formal consultation has been carried out in accordance with the School Standards and Organisation (Wales) Act 2013 and the statutory School Organisation Code 2013.

The results of this consultation are outlined in the Consultation Report which has been prepared and published on the Council website.

6. How will the relevant groups be advised of the changes and the F&EIA?

Stakeholders have been made aware of the publication of the Consultation Report and that this will form part of the decision as to whether or not to move to the publication of the statutory proposal. Copies of the statutory notice will be shared with stakeholders and also published on the Newport City Council website and at the school gates.

7 How will the policy/ practice make Newport more or less fair in relation to:

- Health Inequalities
- Child Poverty
- Skills and Work
- Tackling Domestic Violence

- Alcohol and Substance misuse
- Homelessness
- Armed Forces Veterans

The costly provision will cease and funding targeted appropriately elsewhere.

8. How will the service / policy affect local areas of the city?

Will it have a positive or negative impact in terms of fairness and addressing local area deprivation (you will need to use spatial data available through the Newport Profile and specific Ward Profiles to address this question)?

Whilst the provision is based at Llanwern High School, it can be accessed by pupils across the City according to their level of need. It is likely however that these pupils will now be accommodated in small group placements in their catchment schools, meaning that there will be more interaction with their local peer groups.

9. In summary, how does the changed service /policy promote good community relations (cohesion)?

Pupils will now be accommodated in small group placements in their catchment schools, meaning that there will be more interaction with their local peer groups.

10. In summary, how does the changed service /policy promote equality?

Pupils will now be accommodated in small group placements in their catchment schools, meaning that there will be more interaction with their local peer groups.

11. In summary, how does the changed service /policy eliminate discrimination?

Pupils will now be accommodated in small group placements in their catchment schools, meaning that there will be more interaction with their local peer groups.
