## Trade Waste Receptacles use

The waste receptacles supplied by Newport City Council are for use as follows: -

Bins	These are used for general waste only. No recyclables are to be placed in these bins (other than food waste or glass)
Cardboard Bins	These are no longer supplied. Cardboard cages will now be supplied in their place.
*Cardboard Cages	These are similar to those seen in supermarkets but are used for large quantities of cardboard only.
Blue Sacks	These are to be used for smaller amounts of general waste only, in place of a bin. These are sold in rolls of 13 sacks.
**Dry Mixed Recycling Sacks	These are for plastics, tins, paper (whole or shredded) and small amounts of cardboard. These are sold in rolls of 13. These are <b>NOT</b> to be used for glass or food waste.
Blue Labels	These are to be used if you prefer to use your own sacks. These are sold in packs of 26.
*Cardboard Labels	These are to be placed on bundles of cardboard if you do not have a bin. These are in packs of 10.

Under the TEEP Regulations 2015, all Customers **MUST** separate all recyclable items from general waste items and dispose of separately.

If you have a 1100L Euro bin or a 660L bin for your general waste, we can collect your cardboard for a fee of just £5.00 per empty. It just needs to be placed in manageable bundles next to the bin, or in a cardboard bin or cage supplied by us.

\* Cardboard will not be collected if it is mixed in with other items. We will only collect 'clean' cardboard.

\*\* Unfortunately, Newport City Council cannot recycle glass or food waste at this time. If you wish to recycle glass or food waste, along with your other recyclables, you can also contact Newport Waste Savers on **01633 281 281**

Our prices include supply and delivery of the receptacle and collection of the waste.

We include a copy of your Waste Transfer notice, free of charge, which is required to allow us to legally transport your waste. No one should transport business waste without one as this could carry a hefty fine.

Our prices only increase on 1<sup>st</sup> April each year and are not calculated by the average weight of waste you produce. We increase our prices in line with inflation and Landfill Tax increases.

We also offer a 'Special Trade Collection' service where you can book an additional collection, or arrange to have bulky items collected. Prices will be estimated on inspection.

Contracts can be cancelled with 1 month notice or revised at any time.
